

## Home Learning Online through Glow: P1-P3 pupils

On Friday 20<sup>th</sup> March, schools will officially close. We are aware that this will have an impact on your child's learning and we are looking at ways of supporting our families.

One way of accessing learning activities is through Glow and each child's Glow log-ins, along with their Numbots and Times Tables Rockstars login, will be issued for home use in a letter by Friday. By typing in Glow to Google you will be taken to a log-in page. The address for glow is:

<https://sts.platform.rmunify.com/Account/SignIn/glow>

Glow: Through Glow, your child will be able to access online activities but also Word, PowerPoint etc to create their own documents too. Your family can use Glow to access your child's email. Please find attached suggested Glow activities and also apps and websites, that may be accessible by a range of electronic devices, that you can use with your child until the school is able to provide other learning activities for you.

### Glow Home Learning

There are a variety of platforms that can be used to support learning. These include-

JRSO is a resource with films, activities and quizzes to study Road safety.

Topmarks has learning games and activities across all aspects of the curriculum. For age group, select Early Years for P1 and Key Stage 1 for P1-P3.

Think U Know challenging pupils to examine how they stay safe

Office can be downloaded for free to let children display or record learning.

**Times Tables Rockstars** <https://play.ttrockstars.com/auth/school/student/57877>

*(see login that will be sent home- same login details for Numbots and Times Tables Rockstars)*

This is a great resource (website and app) to develop the children's times tables skills. Rock on!  
*Teachers are able to see children's progress on the Times Tables Rockstars system.*

**Numbots** <https://play.numbots.com/#/account/school-login/57877>

*(see login that will be sent home- same login details for Numbots and Times Tables Rockstars)*

This website (also available as an app) will challenge children to develop their addition and subtraction skills. It is great for working on number bonds!

*Teachers are able to see children's progress on the Numbots system.*

**Websites** (please note that some of these websites may also be available as apps)
